### ***Risk Management***

The solution offered by the LEGENDARY PAW project is based on risk management for our investors, so in addition to the percentage offered from the projects profit, each coin holder will receive 1% of the coin trading fees in their wallet.

This 1% percentage is distributed directly proportional to the number of coins held by each investor and is divided according to the percentage the holder has of the total coins in

circulation, the more PAW coins you hold, the higher the share of coin trading fees you receive.

In addition to this solution, according to the distribution of the fees, part of the fees will also go into the coin market cap, so there will be an efficient and constant cash flow.

Through the coin app all investors will be able to see LIVE how the team is working and each update made for each project.
