Legendary Paw is a blockchain-based project that aims to create a complete ecosystem for its community. It offers a range of products and services including games, smart contracts, cryptocurrency, non-fungible tokens (NFTs), staking, decentralized exchange (DEX), auctions, and more.

The project places a strong emphasis on security and user control over their digital assets.

The PAW coin is designed to be scalable, secure, and fully decentralized. The project also plans to introduce a credit and debit card that will allow members to easily access their digital assets and provide payment processing services for online and offline stores.

The project also has a number of NFT collections available on OpenSea, some of which include access to special events, worlds, and gatherings.

The project also has a focus on decentralization and low fees for crypto exchange, where the user is always in control of their assets.

Legendary Paw also has a play-to-earn and watch-to-earn feature where players can earn rewards in PAW coin by playing or watching certain games or content.

The project is also developing a platform called "The Shelter" that is currently in development, which will be a blockchain-based game metaverse where players can collect and use virtual items such as dogs, cats, weapons, and land.

The project plans to add a staking feature for NFTs and other cryptocurrencies on its DEX platform, which will be available in its wallet and on The Shelter once it is ready.

The project also has a unique tax distribution system where trading fees are 0.5%, 0.5% goes to development and projects, 1% goes to market cap, and 1% goes to coin holders according to the number of coins they hold.

The team behind Legendary Paw is a group of blockchain enthusiasts who aim to make it easier for people to join the digital revolution and access their digital assets.

Legendary Paw is a blockchain-based project that is taking the digital world by storm. With its unique mission to create a complete ecosystem for its community, it offers a wide range of products and services that sets it apart from other existing blockchain projects.

One of the key features of Legendary Paw is its wide range of products and services. From games to smart contracts, from cryptocurrency to non-fungible tokens (NFTs), from staking to decentralized exchange (DEX), and from auctions to many more services, Legendary Paw has something to offer for everyone. This makes it a one-of-a-kind project that caters to the diverse needs of its community.

Another key feature of Legendary Paw is its emphasis on security and user control over its digital assets.

With the increasing number of hacks and thefts in the crypto world, security is of paramount importance. Legendary Paw takes this seriously and ensures that all its products and services are completely secure before releasing them to the public. This gives its community members peace of mind and confidence in their digital assets.

The PAW Coin, the cryptocurrency of Legendary Paw, is also designed to be scalable, secure, and fully decentralized. This ensures that the coin can handle a large number of transactions and that it is not controlled by any central authority. This gives its community members full control over their digital assets.

Legendary Paw also plans to introduce a credit and debit card that will allow members to easily access their digital assets and provide payment processing services for online and offline stores. This will make it easy for community members to use the value of their coins in the real world. In addition, the project has a play-to-earn and watch-to-earn feature, where players can earn rewards in PAW coin by playing or watching certain games or content.

The project is also developing a blockchain game metaverse called the Shelter, where players can collect and use virtual items such as dogs, cats, weapons, and land. Legendary Paw is a unique and innovative project that offers a wide range of products and services, with an emphasis on security and user control over their digital assets. With its low fees and high-security features, it is a project worth keeping an eye on.

In addition to its many features, Legendary Paw is also known for its commitment to the well-being of its community and investors. The project's road map has been subject to changes due to market insecurities, but these changes have been made with the ultimate goal of keeping the funds of its community and investors as safe as possible.

The Legendary Paw team understands that the crypto market can be highly volatile and that it is important to be agile and adapt to market conditions. Therefore, the team has made the decision to use this time to further develop and improve the project in direct relation to the actual market needs. This approach is aimed at creating a stable and sustainable project for the benefit of the community and investors.

BINANCE SMART CHAIN TECHNOLOGY

PAW currently operates using Binance Smart Chain technology. BC supports BEP2 tokens and upcoming BEP8 tokens, which are native assets transferrable and tradable (if listed) via fast transactions and sub-second finality.

Meanwhile, as BSC is Ethereum compatible, it is natural to support ERC20 tokens on BSC, called “BEP2E” (with the real name to be introduced by the future BEPs, it potentially covers BEP8 as well). BEP2E may be “Enhanced” by adding a few more methods to expose more information, such as token Blockchain Ecosystem 5 denomination, decimal precision definition and the owner address who can decide the Token Binding across the chains.

BSC and BC work together to ensure that one token can circulate in both formats with confirmed total supply and be used in different use cases.

STAKING: Tokens & NFTs

Staking will be available only after The Shelter and DEX will be launched.

Staking rewards for different lengths of time for 1 Legendary Paw NFT:

3 months: 5% | 6 months: 12% | 12 months: 25%

staking rewards for different lengths of time for 1 Legendary Paw Token:

3 months: 5% | 6 months: 10% | 12 months: 21% | 24 months: 45%

For every 1,000 PAW tokens staked, receive a special edition Legendary Paw NFT

For every 5,000 PAW tokens staked, receive a unique Legendary Paw NFT with exclusive access to events and content within the platform

For every 50,000 PAW tokens staked, receive a limited-edition Legendary Paw NFT with even more exclusive perks and benefits

For every 100,000 PAW tokens staked, receive a one-of-a-kind Legendary Paw NFT with the highest level of access and privileges within the platform

Staking means holding onto your PAW NFTs or PAW tokens for a certain length of time, during which you will be rewarded with additional PAW tokens. For example, if you stake 1,000 PAW tokens for 3 months, you may earn an extra 5% in PAW tokens as a reward. This reward will be paid in PAW tokens, which can be used within the Legendary Paw platform, DEX, or traded on cryptocurrency exchanges. Staking is a way to support and invest in the Legendary Paw community, and can also provide an opportunity to earn additional tokens.

FAQ: What is the purpose of this coin?

The purpose is to create the first-ever blockchain ecosystem, is that of creating an investment instrument for the projects that we are going to start, offering the general public the chance to invest in these projects and in this coin before its official release and only a limited number of investors will have access.

We want to be able to offer access to everyone that wants to increase their earnings and believes in our team's projects, and the projects of LEGENDARY PAW.

How far we want to go with our project? We have a business plan until the year 2040, each project and many other projects that are not yet in the whitepaper and that will be added every year, will revolutionize the world we live in, we are ready to evolve and carry out all the plans we have.

In comparison to other competitors, what additional benefits does LEGENDARY PAW offer?

A young and ambitious team collaborated with a lot of experts to give life to the projects envisioned by the coin's CEO who started this project earlier in 2021, on one long Sunday evening, and convinced himself to keep fighting to make this dream come true.

LEGENDARY PAW has many advantages over the rest of the competition. Most importantly, it offers solutions to existing problems in the crypto market with a series of projects which will produce a constant cash flow in the market cap of the coin, with a new technology which will be a direct competitor to Blockchain and that has a well thought out marketing plan, partners, growth and is listed on DEX.

Why should someone buy LEGENDARY PAW?

Because this project will constantly develop solutions to global problems that will generate important income for every holder and due to its infrastructure, revolutionize the crypto industry.

Thus, it will be the first coin with a constant utility in diverse fields of activity – in digital as well as in real life.

Why we chose BSC?

Because we did not wish to complicate the start-up of the private sale and we wanted to shock the world.

Having the launch of LEGENDARY PAW own chain already planned meant that all investors who initially believed in the project were able to enjoy the price increase of the coin and we were able to focus on finding the right people and expanding our portfolio's projects.

So, this method was the easiest to implement and the fastest, in order for us to not miss the start.

DISCLAIMER Risk Management

The solution offered by the LEGENDARY PAW project is based on risk management for our investors, so in addition to the percentage offered from the projects profit, each coin holder will receive 1% of the coin trading fees in their wallet.

This 1% percentage is distributed directly proportional to the number of coins held by each investor and is divided according to the percentage the holder has of the total coins in circulation, the more PAW coins you hold, the higher the share of coin trading fees you receive.

In addition to this solution, according to the distribution of the fees, part of the fees will also go into the coin market cap, so there will be an efficient and constant cash flow.

Through the coin app all investors will be able to see LIVE how the team is working and each update made for each project.
