Dear Community,

September 05, 2023

Introduction

- **Background and Overview of Legendary Paw Dogs and Cats**

The Legendary Paw Dogs & Cats project was launched on December 8th, 2021, at the same time as the \$PAW tokens contract deployment.

- **Project Vision and Mission**

Legendary Paw's vision is to develop a fully working blockchain ecosystem, to cover all the blockchain needs, constantly searching and solving new problems in real time, at a low cost, and with the highest security possible.

We make it our mission to offer simple yet advanced blockchain and digital services to our community, using the wealth-sharing concept to share the project's profits with the community, our most beloved pets, dogs & cats, and of course with the people in need.

Project Components

- **\$PAW Tokens**

42 mil fixed supply | 3% taxes | BSC network
1% going back to the liquidity pool
1% going automatically to holders
1% marketing and development

The token was created on BSC because of the low fees and fast speed provided by the network. Also it was the fastest way of being able to raise capital from investors in order to start the project's further development.

- **NFT Collections**

Multiple collections of PAW NFTs are available at the moment on OpenSea, with more to come.

PAW NFTs are followed by access to the PawCon, a blockchain and digital conference, to be held once a year.

While we develop the project more utility will come, like staking, access to members-only areas, play 2 earn games, slot games, and much more.

- **Back Projects**

We've got an array of back projects lined up, all designed to bolster token stability and drive demand. Our community-driven approach ensures every project benefits the Legendary Paw ecosystem.

| DEX | Wallet | NFTs | Merch | Auction Platform | Crypto Stock Exchange | Staking | Games (Slot & VR) | Cards | Payment Provider | Electric Vehicles Software | Blockchain News | DEFI | Launchpad |

And the list will constantly be growing based on development and tech demands.

Token Transition

- **Introduction to the New Token**

DaryX Coin (DaryX)

42 mil fixed supply | NO tax | BSC network

We go to the next stage by lowering the tax to 0% from 3% to equal the market demands.

As well as adding more security and speed by using the new line of contracts available on the market.

This new token coin will be the last issued on BSC, with the next one targeted to be on Legendary Paw's blockchain-backed by AI security and faster speeds with even lower fees. (2% taxes)

The new Token Coin name: DaryX Coin (DaryX)

address:

0x5E32d91484147Bdb4861189b700846dfa16757E0

- **Transition Plan for \$PAW Token Holders**

All \$PAW holders will automatically receive their \$PAW worth in the DaryX Coin (DaryX) on the official inauguration day.

They will also receive a bonus of Staking for the period of their \$PAW holding.

Dear Community,

September 05, 2023

- **Legacy Mode for \$PAW Tokens**

All the \$PAW tokens remaining will be switched to Legacy mode and will remain in a public pool.

Their worth will be reduced to 0 and they will be present there just as a reminder of Legendary Paw's beginnings.

All the \$PAW holders are free to keep their \$PAW amounts in their wallets.

What's Next?

We're launching our NFT collections on OpenSea in October, featuring both the classic and the all-new Amazing Collection. Each of our assets will have its dedicated website, providing detailed information and status updates.

Legendary Paw is evolving, and we invite you to join us on this exciting journey. Together, we'll shape the future of pet-loving blockchain communities.

DISCLAIMER Risk Management

The solution offered by the LEGENDARY PAW project is based on risk management for our investors, so in addition to the percentage offered from the project profit, each coin holder will receive 0.5% of the coin trading fees in their wallet.

This 0.5% percentage is distributed directly proportional to the number of coins held by each investor and is divided according to the percentage the holder has of the total coins in circulation, the more coins you hold, the higher the share of coin trading fees you receive.

In addition to this solution, according to the distribution of the fees, part of the fees will also go into the coin marketing budget (0.5%).

LEGAL DISCLAIMER

LEGENDARY PAW Dogs & Cats presents this whitepaper as a blueprint of the project it is developing but **does not guarantee a certain value or a future or constant price of the coin**, as the market will ultimately decide the price and value of PAW.

The team will work to bring the coin projects to fruition in order to make the most of the LEGENDARY PAW project.

The whitepaper is subject to future changes of any kind.

The **cryptocurrency market is a volatile and risky one**, as is well known, but the LEGENDARY PAW team will strive to change these aspects, but nothing is guaranteed, as the deciding factor remains the market: supply and demand, and **we cannot influence the price/value or results in any way.**
